Subject: RE: Parkersburg Ames Warehouse - air analytical not loaded yet

Thanks. This is consistent with what we have been thinking regarding the other polymers involved in the fire. Within limits, we can probably use this SDS as something as a surrogate for the other products in the warehouse.

Subject: Parkersburg Ames Warehouse - air analytical not loaded yet

Just FYI- I don't see any other detects in field monitoring today, just PM (see screenshot).

I see a spot on website for analytical (39 minicans; SO2; PAHs / 35 field samples 4 blanks collected on 10/23) but results aren't loaded yet unless I am missing that somewhere. Lora
